Joining a GoToMeeting videoconference

1. www.gotomeeting.com

2. Click on join meeting (top right hand corner)

3. Type in meeting ID number which Abe will give to you.

4. You will need to download a program on your computer to join. This will take no more than 30 seconds. All this will do is give you an icon on your desktop to have Gotomeeting Quick Connect.

5. Once you have connected to the meeting you will be able to see Abe. Click on the little icon that looks like a movie camera so that Abe will see you (if you have a webcam on your computer).

Enjoy!
